Volume XII Tifton, Georgia, July, 1945 Number II

Entered as Second Class Matter at the Post Office, Tifton, Ga.,  
June 12, 1926, under the Act of August 24, 1912. Issued quarterly.

# Abraham Baldwin Agricultural College

At the present time you who have finished high school must make two decisions. First, you must decide whether it is worth while going to college when armed forces may soon call or when high paying jobs are available. Second, you must decide which college you wish to attend.

It seems wise to get as much college education as possible before entering the armed forces or taking a job. The time spent in college will pay rich returns in the progress made after you have entered the armed forces or after you have secured a job.

In choosing the college to attend a number of factors must be considered. First, if you want specialized training, enter a college offering this training.

Second, the college you choose should be a recognized college.

Third, the college you choose should offer certain advantages in recreational, social, and cultural life which will make college a pleasant place in which to live.

Fourth, other things being equal, you should choose the college furnishing what you wish at a minimum cost.

This bulletin is prepared to acquaint you with the offerings of Abraham Baldwin Agricultural College.

Our students have made splendid records in the armed forces, and many tell us that their progress has been due to training received here. Our students are filling well their place in civilian life, on the farm, in the home, and on other jobs.

**EX-SERVICE MEN**—For those men who have been in the service and are planning to study agriculture, Abraham Baldwin offers special inducements. A study will be made by a faculty committee of the individual's qualifications and interests, and the student's course will be outlined according to his interests and ability. Credit will be allowed in the regular course for subjects studied while in service.

The college specializes in agriculture for men and home economics for women. No better facilities for teaching each of these subjects on a practical basis can be found.

The college is a unit of the University System of Georgia.

The college has many facilities for students in their recreational, social, and cultural life.

The college offers its opportunities at as low a cost as any college in the state. In addition, work opportunities are offered for students who need some help financially.

These items and others will be discussed more fully in the following pages. After you have read this bulletin and have decided that you would like to have training in agriculture or home economics, we shall be glad to have you make application for admission.

**TRANSFER OF CREDIT** to the College of Agriculture on the part of young men and to any of the senior colleges specializing in Home Economics in the case of young women is possible because the college is a unit of the University System. This means that students wishing to secure degrees may do so by attending Abraham Baldwin Agricultural College for the first six quarters and transferring to a senior unit for the last six quarters.

#### THE COASTAL PLAIN EXPERIMENT STATION.

ers. It will be of interest to such students to know that Abraham Baldwin graduates are the only graduates of any two-year college in the state, who are admitted to the Junior Class of the College of Agriculture as Juniors with full credit.

**THE LOCATION** is all that could be desired in an agricultural college. The college is about three miles north of Tifton, which is in the heart of the best and largest farming area of the State. Its campus is surrounded by the Georgia Coastal Plain Experiment Station with its 2,000 acres devoted to the latest problems in agricultural research. The first-hand results of the experiments are available to our students. On the station experimental plots and in the area practically every southern agricultural enterprise, both livestock and crop, is successfully grown.

**THE HEALTH OF THE STUDENT** is safeguarded by a required physical examination upon admission to college. Every precaution is taken to have a healthy student body and the number during the year who are sick is negligible. The college provides medical service to its boarding students in cases of minor illness, but the cost of medicine and the cost of a physician is the responsibility of the student. Also, the college assumes no responsibility for injuries received in voluntary or required activities.

**SOCIETIES AND PUBLICATIONS.** Prominent among the vocational organizations on the campus are the Home Economics, the Future Farmers of America, the 4-H, Saddle and Sirloin, and Engineering clubs.

In forensics and dramatics students have splendid opportunity for development of talent in the Forum Club and in the Baldwin Players.

The college has glee clubs for both men and women. Membership is on a competitive basis and is open to any student in the college.

Student publications include the college annual, *Tabac*, and the monthly newspaper, *The Broadcast*. Both publications have been discontinued during the war period, but they will be resumed as soon as conditions will permit.

**RELIGIOUS LIFE** is well cared for. A vesper service is held each Sunday evening on the campus. Active Epworth League, B.T.U., and Student Service League groups plan and produce

the programs for this service. On Sunday morning the students attend Sunday school and church in the Tifton churches.

**THE RECREATIONAL PROGRAM** is set up for the entire student body. Emphasis is placed on physical fitness, but ample opportunity is given for baseball, basketball, touch-ball, tennis and volleyball. Swimming is a feature of the program. A skilled recreational director is in charge of intramural and intercollegiate games.

**FRESHMAN WEEK** begins on Wednesday, September 19, at which time all new students should report to the college. Two days, the 19th and 20th, will be devoted to physical examinations and placement tests. Second year students will report September 20th. Classes will begin on September 21st.

Articles to be brought from home should be towels, a pillow, two pillow cases, four sheets, blankets or quilts, laundry bag, bathrobe and other personal belongings. The rooms are furnished with single beds, mattresses, chairs, dresser, electric lights, shades, and other necessary equipment.

**COLLEGE EXPENSES** are payable in advance. Below is a schedule of costs by the quarter. **Note: All charges are subject to change at the end of any quarter.**

All trunks and suitcases shipped in should be addressed in care of Abraham Baldwin Agricultural College, Tifton, Ga.

TYPICAL SCENE AT THE BEAUTIFUL COLLEGE POOL.

Fees .....	\$20.00
Room .....	12.00
Board .....	60.00
Total .....	\$92.00

After two weeks no refunds will be made for less than one-third of a quarters expenses.

The estimated cost of books and laundry is \$10.00 per quarter.

**BREAKAGE DEPOSITS** are required upon registration. The following deposits are returnable at the end of the year if the college property has not been damaged. Each student is held responsible for the protection of his own room and its furnishings, for library books, or any other college property. Breakage or loss over the amount of the deposit will be collectable at the time of breakage. Deposits not claimed by June 10th shall revert to the college.

Dormitory Deposit .....	\$3.00
Dormitory Key Deposit .....	.50

**FIRST HONOR GRADUATES** of accredited Georgia High schools will not have to pay any fees (\$60.00) for the first year.

**RULES AND REGULATIONS** are set up to maintain the health, the scholarship, and the moral integrity of the students.

1. No drinking of intoxicants;
  2. No gambling;
  3. No hazing;
  4. No cheating.
- Students breaking any of the above four rules will be asked to drop from college.
5. Students are required to be in their rooms at night at a reasonable hour.
  6. At the end of each mid-quarter, students not doing a satisfactory grade of work will be required to attend study hall for the remainder of that quarter.
  7. Young ladies will be allowed to go home only upon receipt of a written request from parents or guardian. This request should be addressed to the matron in charge of the girls' dormitory. Arrangements are made whereby students may go home twice in each quarter without missing classes. It is the desire

of the college that no other leaves take place except in case of illness or other emergencies.

8. The President may request the withdrawal of a student at any time because of unsatisfactory spirit, conduct, or scholarship without having to make specific charges.

**THE COLLEGE EMPLOYS** a limited number of students to assist in the library, as janitors, as dining hall and kitchen helpers, on the campus, processing plant, garden, farm, and with the poultry.

The Coastal Plain Experiment Station furnishes employment to several in the dairy and in its experimental projects.

**LOANS ARE AVAILABLE** to a limited number of students from the following sources:

1. **Baldwin Loan Fund**—This fund is made up of miscellaneous contributions and is administered by the college.
2. **Rotary Loan Fund**—Upon recommendation of the college the Tifton Rotary Club will make small loans to students from its loan fund.
3. **Ruth Fulwood Wright Loan**—Each year one second year girl may borrow \$125 from the loan fund established by Mrs. Ruth Fulwood Wright.

FUTURE HOME-MAKERS AT WORK IN SEWING LAB.

**A DESCRIPTION OF COURSES** in Agriculture and Home Economics is given below. These courses are planned with the aim of the college in mind, and students are sectioned according to experience and previous training in order that they may receive the maximum benefits from the courses.

**THE AGRICULTURAL COURSE** is made most efficient because of the facilities present.

Courses offered in Agriculture are as follows:

**Farm Management 1:** 5 hours. The subject matter in Farm Management is built around the home practices, state practices and practices of successful farmers in the production, utilization, and marketing of farm commodities. Second year.

**Animal Production 1:** 10 hours. Four lectures and one laboratory weekly for two quarters. The best practices in the critical jobs of production and marketing of beef cattle, dairy cattle, hogs, and poultry are studied. Second year.

**Crop Production 1:** 10 hours. Four recitations and one laboratory weekly for two quarters. The best practices in the critical jobs of production and marketing of the more common crops are studied. First year.

**Soils 1:** 6 hours. Five lectures and one laboratory. The subject matter covers the physical and chemical properties of soils, a study of the more common types of soils, the fertilizer requirements of various soil types, and the best practices in soil management. Second year.

**Forestry 1:** 5 hours. Four lectures and one laboratory period. Deals with elements of forestry management, including tree identification, forest production, forest care, measurement, and the harvesting and marketing of forest products. First year.

**Farm Mechanics I:** 5 hours, lectures and laboratories. Theory and practice in: Woodworking and Carpentry, Paints and Painting, Forge, Concrete, Farm Machinery and Equipment, Soil Conservation, Soldering. First year.

**Farm Mechanics II:** 5 hours, lectures and laboratories. Theory and practice in: Terracing and Gully Control, Farm Building Construction. Second year.

For those students wishing to specialize in Forestry and Agricultural Engineering, advanced courses will be offered with the course of study made up to fit the future plans of the student.

**HOME MAKING COURSES** offer young women training that will enable them to maintain an efficient home. Lack of dormitory space limits the number of girls to ninety which assures close personal supervision. The course is made effective through the use of a fully equipped home unit.

**Home Economics 101:** 5 hours. Lecture. An introduction to the study of Home Economics and problems of living on the campus. First year.

**Foods 205:** 5 hours. Two lectures and three laboratories per week. A course in cooking including meal planning, meal preparation, table service, and demonstration cookery. First year.

**Clothing 220:** 5 hours. Two lectures and three laboratory periods per week. A course teaching the selection, purchase, construction and identification of fabrics, their choice and use. Second year.

**Art Survey 30:** 5 hours. Three lectures and two laboratory periods. A course designed to develop art appreciation and good taste in the application of art principles to clothing and the home. First year.

**Elementary Textiles 222:** 5 hours. Two lectures and three laboratory periods per week. A study of raw material, the construction and identification of fabrics, their choice and use. Second year.

A CLASS IN BUTTER MAKING.

**Home Furnishing 1:** 5 hours. Two lectures and three laboratory periods per week. Prerequisite, Art 30. A study of the intelligent and artistic selection of household furnishings through the solution of definite furnishing problems on the campus. Second year.

**Family Relationship 243:** 5 hours. Lecture. A study of the social, economic, and health problems which confront the family. Second year.

**Home Management 1:** 3 hours. Young women conduct for six weeks the home unit. Second year.

**Advanced Foods 2:** 5 hours. Two lectures and three laboratory periods per week. An elective course for students desiring more advanced work in foods. Prerequisite, Foods 205. Second year.

**THE SCIENCE COURSES** at Abraham Baldwin are taught from two approaches. The basic knowledge of science that should be part of the knowledge of a well informed citizen is taught as is the science with more direct applications to the problems of the farmer and home-maker.

**Botany 21:** 5 hours. Four lectures and one laboratory period. A study of the physiological make-up and the economic significance of plants. First year.

**Botany 22:** 5 hours. Four lectures and one laboratory period. A continuation of Botany 1, noting the relationships, characteristics and economic significance of each division. A brief introduction to Plant Taxonomy is included. Second year.

**Biology 101-102:** 10 hours. For women. This course is designed to give the students a survey of the fundamental parts of biology, including human anatomy, physiology, and the maintenance of health. Public health, genetics, and eugenics are stressed. First year.

**Chemistry 21:** 5 hours. Three lectures and two laboratories. General in scope, dealing with the chemical principles and the application of chemistry to the life of the citizen. First year.

**Chemistry 24:** 5 hours. Three lectures and two laboratories. Emphasizes the principles and applications of chemistry as related to the farmer or the home maker. Second year.

**Mathematics 111 (Men):** 5 hours. A study of the specific field of Trigonometry as related to the war effort.

# STUDENT ACTIVITIES

1945-46 BULLETIN, TIFTON, GEORGIA

11

**Mathematics 101 (Men):** 5 hours. A remedial course for students deficient in mathematics.

**Mathematics 101 (Women):** 5 hours. A functional Math for use by women in the field of Home Economics.

**Mathematics 224 (Men):** 5 hours. A study of college algebra.

Note: Men students failing to show sufficient understanding of arithmetic will be required to take Math 101 before attempting Mathematics 111, and will not be required to take Mathematics 224.

**Physics 20:** 5 hours. Four lectures and one laboratory period. A study of some principles and simpler applications of physics along with a history of the development of physics. Second year.

**THE ARTS:** English and Social Science are taught from the standpoint of the well informed citizen. The literature and social problems of rural life are given special emphasis.

**English 101-102:** 10 hours. Grammar and composition. First year.

**English 203:** 5 hours. A continuation of English 1 with special emphasis on oral English. Second year.

**Humanities 201-202:** 10 hours. Designed to develop in the student some knowledge and appreciation of literature, music painting, sculpture, and architecture. Second year, women.

**Social Science 204:** A study of current Georgia Problems.

**Social Science 101-102:** 10 hours. A brief study of the historical, political, economic and social factors molding modern civilization. First year.

## ELECTIVE COURSES IN AGRICULTURE

When a sufficient number of students to justify a class request that a particular agricultural subject be taught, it will be offered. Below are given electives which the college will offer:

**Beef Cattle:** Prerequisite, Animal Production. A further study in breeding, feeding, and management of beef cattle.

**Dairying:** Prerequisite, Animal Production. A further study of breeding, feeding, and management of the dairy herd. Special work is done in the manufacture of butter, cheese and ice cream.

**Poultry:** A detailed study of the problems in the successful growing of poultry for meat and for egg production.

**Swine:** Prerequisite, Animal Production. A further study of breeding, feeding, and management of the swineherd. Particular emphasis is placed on the year-round hogging-off of crops as developed at the Georgia Coastal Plain Experiment Station.

**Bee Culture:** A study of the management problems concerned in the production of honey, with special attention to the part of the bee in the pollination of crops.

**Special Field Crops of the Coastal Plain:** Prerequisite, Crop Production. This course is designed to study in greater detail those crops limited or practically limited to the Coastal Plain area, as tobacco, peanuts, sugar cane, etc.

**Food Preservation:** A special study of the methods of food preservation including dehydration, freezing, and canning.

(Students pursuing courses leading to a degree in agriculture may take any of the elective subjects offered terminal students. Credits in these elective courses are not transferable).

#### OUTLINE OF COURSES IN AGRICULTURE

(Minimum Junior College requirements for students seeking a degree in Agriculture).

##### FIRST YEAR

Crop Production I  
Farm Mechanics I  
Mathematics 101  
Botany 21  
Social Science 101  
English 101-102  
Chemistry 21  
Physical Education  
Trigonometry 111  
Orientation

##### SECOND YEAR

Farm Management  
Animal Production  
Social Science 204  
English 203  
Chemistry 24  
Physics 20  
Botany 22  
Soils 1  
Farm Mechanics 2  
Physical Education  
College Algebra 224

#### TERMINAL COURSES

(Subjects listed below may be used for electives by students desiring terminal certificate. Electives will be substituted for certain required subjects listed above after a conference between student and faculty advisor).

Food Preservation  
Beef Cattle  
Swine  
Dairying

Poultry  
Bee Culture  
Special Field Crops of  
the Coastal Plain

#### OUTLINE OF COURSES IN HOME MAKING

##### FIRST YEAR

Social Science 101-102

## REQUIREMENTS FOR RESIDENCE

1. A student who does not earn credit in at least one course during any quarter shall not be eligible to register for the succeeding quarter.

2. Any student who fails to earn credit in at least two courses during the quarter shall be placed on probation for the succeeding quarter. This probation shall continue until the student has passed for one quarter a normal load of three courses.

3. A student while on academic probation must earn credit in at least two courses. One of these courses must carry a minimum grade of C.

4. Students dismissed for defective scholarship may again register after an absence of one academic quarter.

5. The courses referred to above are exclusive of the usual required courses in Physical Education.

6. Students who fail to meet the regulations as above set forth because of illness or because of properly permitted less than a normal load of work, may receive such special consideration as their cases merit.

7. While the summer quarter is to be considered as a regular quarter by those institutions who maintain a summer quarter, students are not to be excluded from this quarter under the action of the above rules, but are to be allowed to make up deficiencies in the summer quarter of the institution concerned or other approved Summer Schools.

8. The above rules constitute the minimum scholastic conditions under which students can remain in the college. It is understood, however, that a student may be dismissed for deficiencies in scholarship at any time, even though he is not excluded under the above rules.

9. **Guests.** Before a guest is invited to the college, arrangements must be made with the matron in charge of the dormitory where the guest is to visit. All guests are expected to conform to the regulations of the halls of residence. Meal tickets for guests must be purchased at the Business Office. No charge for meals is made to the alumnae, prospective students, or immediate family of a Baldwin student. However, they should secure their meal tickets from the Business Office.

ENROLLMENT AT  
ABRAHAM BALDWIN AGRICULTURAL COLLEGE  
1944-45

## FIRST YEAR WOMEN

Allen, Elva	Nashville	Jackson, Mariwood	Morgan
Bell, Carolyn	Cairo	Kight, Virginia	Kite
