March 27—Classes Begin

June 6—End of Term

COMMENCEMENT SERMON: Sunday, June 3, 1951

GRADUATION EXERCISES: Wednesday, June 6, 1951

REGENTS, UNIVERSITY SYSTEM OF GEORGIA

20 Ivy Street, S. E., Room 400, Atlanta, Ga.

District	Regent	Address
State at Large	Mrs. William T. Healey, Atlanta (January 18, 1950-January 1, 1953)	
State at Large	John J. McDonough, Rome (January 1, 1950-January 1, 1957)	
State at Large	Frank M. Spratlin, Atlanta (January 1, 1946-January 1, 1953)	
State at Large	Hughes Spalding, Atlanta (January 10, 1949-January 1, 1956)	
State at Large	Carey Williams, Greensboro (January 10, 1949-January 1, 1955)	
First	James Peterson, Soperton (January 10, 1949-January 1, 1955)	
Second	H. L. Wingate, Macon (January 1, 1947-January 1, 1954)	
Third	Cason J. Callaway, Hamilton (January 1, 1944-January 1, 1951)	
Fourth	Robert O. Arnold, Covington (January 10, 1949-January 1, 1956)	
Fifth	Rutherford L. Ellis, Atlanta (January 1, 1947-January 1, 1954)	
Sixth	Charles J. Bloch, Macon (January 7, 1950-January 1, 1957)	
Seventh	Roy N. Emmet, Cedartown (January 1, 1945-January 1, 1952)	
Eighth	Francis Stubbs, Sr., Douglas (January 12, 1950-January 1, 1947)	
Ninth	Sandy Beaver, Gainesville (January 1, 1945-January 1, 1952)	
Tenth	William S. Morris, Augusta (January 1, 1944-January 1, 1951)	

OFFICERS OF THE BOARD OF REGENTS

Chairman	Hughes Spalding
Vice Chairman	Robert O. Arnold
Chancellor	Harmon W. Caldwell
Assistant Chancellor	George M. Sparks
Assistant to the Chancellor	John E. Sims
Executive Secretary	L. R. Siebert
Treasurer	W. Wilson Noyes

OFFICERS OF ADMINISTRATION

Donaldson, Geo. P., B.S., M.S.	President
Cordell, T. M., B.S.A.	Dean
King, Geo. H., B.S., M.S.	Co-ordinator
Coastal Plain Experiment Station and College Activities	
Dewberry, W. M.	Comptroller
Howard, Evamae	Registrar and Executive Secretary
Church, Frederic C., B.S.	Dean of Men
Johnson, Mrs. B. M.	Dean of Women
Bailey, Mrs. Cecile K.	Secretary to Dean
Archer, Mrs. Margaret	Cashier
Shepherd, Mrs. Rosalie L.	Asst. Comptroller and Director of Veterans' Affairs
Knight, Mrs. Faye	Secretary to President

FACULTY

Britt, Mary Lou, B.S., M.S.	Chemistry
Carter, R. L., B.S., M.S.	Soils
Chambliss, J. C., B.S.A.	Agricultural Engineering
Church, Frederic C., B.S.	Health and Phys. Education
Cochran, S. V., Jr., A.B., M.A.	Physics and Phys. Education
Cordell, T. M., B.S.A.	English and Speech
Dillard, Geo. K., B.S.A., M.S.A.	Adult Education
Donaldson, Geo. P., B.S., M.S.	Animal Husbandry
Edwards, Ernest	Speech
Gaines, Ina., B.S., M.S.H.E.	Director of Glee Club
Gaines, Paul, B.S.A.	Home Economics
(Director of Student Activities)	
Gaskins, Mrs. A. W.	Horticulture and Botany
Gray, Nettie, B.S.L.S., A.B., M.A.	Assistant Dietician
Gressette, Bruce, B.S., M.S.	Librarian
Howard, Lucille, B.S.	Math & Dir. of Athletics
Howell, Mrs. A. H.	Assistant Librarian
Kicklighter, Ralph, B.F.A.	Dietician
Knight, Vernon, B.S.F.	English and Piano
Lanford, Leroy C., B.S.A.	Botany and Forestry
Morris, W. R., B.S., M.S.	Agronomy
Sarratt, Jay V., B.S.	Mathematics and Physics
Shepherd, Mrs. Hortense D., B.S.H.E.	English and Social Studies
Sippell, Mrs. Wm. L., A.B., M.A.	Home Economics
Towler, Viola, A.B.	Chemistry
Turner, John, B.S.A.	Social Science
Tucker, Mrs. Callie	Botany
Yow, Vernon, B.S., M.S.	College Nurse and Hostess
	Forestry

General Information

HISTORY—Abraham Baldwin Agricultural College was established by a special act of the Board of Regents of the University System of Georgia in 1933 and received its first student body in September of that year.

The 1950-51 session will mark the eighteenth year of the school, and each year has seen improvements in physical plant, faculty, and achievement. There has also been a steady increase in enrollment. The first student body contained only sixty-nine members. Today approximately four hundred-fifty young men and women are enrolled, and indications point to even larger numbers in the years that lie ahead.

LOCATION—The college is located three miles north of Tifton on the site of the former Georgia State College for Men. The college campus is surrounded by the Georgia Coastal Plain Experiment Station with its three thousand acres devoted to the latest problems in agricultural research. On the Station experimental plots and in the area, practically every agricultural enterprise is successfully grown. The first-hand results of the experiments are available to the students.

Located on main lines of the Southern and Atlantic Coast Line railways and on Highways 41, 319, and 82, the college is easily accessible by train or motor car.

PURPOSE—The courses of study are intended to meet the needs of those students who expect to enter their life's work in rural areas after completing two years of college and to prepare for senior college those who wish to take four years of college work or to seek further training in professional schools. The ultimate aim is to prepare for good citizenship.

Abraham Baldwin has many facilities for training in cultural, social, and recreational life which develop well-rounded citizens. Of major importance to rural students is the stress placed upon the development of leadership and of wholesome rural living.

Based on history, recognition, and success of students, the school is worthy of consideration by all high school graduates who are making a choice of a school of higher learning. Abraham Baldwin believes that as a state supported college, its

plant and staff should be available to citizens of the state throughout the year. The college, therefore, operates on a full four-quarter schedule with the summer quarter an integral part of the college year.

SHORT COURSES—In order to serve the farm people of our state, in 1940 the college inaugurated a series of short courses for farmers and other workers in rural areas. These courses have met with state wide popularity and are increasing each year in numbers and in interest. Cooperating with the college in this adult program of education are the Coastal Plains Experiment Station, the Agricultural Extension Service, the Department of Vocational Education, the Soil Conservation Service, Farmers Home Administration, College of Agriculture, the Georgia Experiment Station, the United States Department of Agriculture, outstanding farmers, and commercial firms. If sufficient interest is manifested the college and the above named agencies will offer courses on any subject that will be of service to rural Georgia.

Buildings and Grounds

ADMINISTRATION BUILDING—The Administration Building, recently renovated and redecorated, provides space for general offices, for classrooms, and for laboratories in chemistry and in physics.

AGRICULTURAL BUILDING—The Agricultural Building, erected with the aid of the United States Government under the Public Works Administration, is used for courses in animal production, agronomy, agricultural engineering, forestry, horticulture, soils, and botany. Excellent laboratories are provided for the courses requiring laboratory work.

A large conference room for short courses is located in the Agricultural Building.

HOME ECONOMICS BUILDING—An excellent building, complete with kitchen, sewing rooms, dining room, and classrooms, is provided for the students in home economics.

LIBRARY—The Library contains 7,409 volumes, exclusive of duplicates and government documents. Over 100 leading maga-

zines are found on the reading tables. The library is open to students, faculty, and citizens. Trained librarians seek to make it educational and cultural.

AUDITORIUM-GYMNASIUM—The Auditorium-Gymnasium is a beautiful twin-brick structure connected by arcades and a rotunda. The Auditorium is a center for many of the college activities—chapel, religious services, entertainments, and concerts. The Music Department is also located in the Auditorium. The Gymnasium is used for classes in physical education and for basketball.

DORMITORIES—Weltner Hall and Herring Hall for men and Lewis Hall for women provide housing for three hundred students. Temporary structures have been built to house approximately one hundred men. The Board of Regents has recently authorized the building of a new dormitory which will greatly relieve crowded conditions.

PROCESSING PLANT—The college can boast of one of the finest plants in the southeast for the processing of foods. A modern building, equipped with complete machinery for quick freezing and canning, furnishes excellent laboratories for food preservation.

LOG CABIN—The log cabin houses the college store and post office. It is also used as a recreation center.

SHOP—Our Farm Shop houses over \$100,000 worth of up-to-date equipment used in the study of welding, sheet metal work, wood work, and general farm repairs. Classes in agricultural engineering are able to make a detailed study of farm tractors and other machinery in field and in shop.

FARM—Over one hundred acres of land are used in the teaching program for rotated crops, animal production, poultry, and pasture development. Classroom instruction and practical work are closely correlated.

Veterans

Former members of the armed forces desiring educational training in agriculture or related fields may enroll in this institution under Public Law 346 or 16.

Veterans enrolling with this institution for their first training under Public Law 346 should have their original certificates of eligibility in hand when reporting for registration. Those who have trained previously with another establishment but who desire to transfer to this institution for further training under Public Law 346 should have a supplemental certificate of eligibility.

Veterans enrolling with this institution for training under Public Law 16, whether by original registration or transfer from another training establishment, should have a letter of authorization from the Veterans Administration covering their training objectives.

Failure to have certificates of eligibility or letters of authorization for training in hand on the date of registration requires the veteran involved to pay all fees, which fees are refunded upon completion of the veteran's training records with the Veterans Administration.

In order to receive full subsistence allowance while in training under Public Law 346, veterans must register for and complete a minimum of fifteen quarter hours; otherwise, subsistence allowance will be on prorata basis. Veterans in training under Public Law 16 must carry fifteen or more quarter hours at all times.

Transfer of Credit

Transfer of credit to the College of Agriculture on the part of young men and to any of the senior colleges specializing in home economics in the case of young women is possible because the college is a unit of the University System. This means that students wishing to secure degrees in agriculture or home economics may do so by attending Abraham Baldwin Agricultural College for the first six quarters and transferring to a senior unit for the last six quarters. It will be of interest to such students to know that Abraham Baldwin graduates are the only graduates of any junior college in the State who are admitted to the Junior class of the College of Agriculture with full credit. Also, credits from Abraham Baldwin are readily accepted by senior colleges of agriculture and home economics in other states.

Medical Services

The health of the student is safeguarded by a required physical examination upon admission to college. Every precaution is taken to have a healthy student body and the number who are sick during the year is negligible. The college employs a practical nurse and provides medical services to its boarding students in cases of minor illness, but the cost of medicine and the cost of a physician is the responsibility of the student. The college assumes no responsibility for injuries received in voluntary or required activities.

Student Organizations

The college provides various types of student activities which furnish training and leadership, afford opportunities for diversion, and serve as means of development of the student. Each student is encouraged to take part in one or more of these organizations.

THE GLEE CLUB, a choral group of approximately fifty voices, is open to all students who are interested in music. The organization presents a full concert each quarter, and in addition presents chapel programs. Out-of-town concerts are presented in the spring. Smaller musical groups, a girls trio and a boys quartet, are formed each year.

THE BALDWIN PLAYERS, the dramatic club of the college, presents one-act plays during the school year and climaxes its activities with a three-act play during the spring quarter. Members of the dramatic club are given valuable training in costuming, stage designing, and stage lighting.

THE HOME ECONOMICS CLUB is an organization open to all students who take courses in home economics. The aim of the club is to afford students an opportunity to become better acquainted with the social and professional activities of home economics leaders and provide for their own personal development through active participation in club programs.

Prominent among the other vocational activities on the campus are the **FUTURE FARMERS OF AMERICA**, the **4-H CLUB**, **SADDLE AND SIRLOIN**, and **ENGINEERS CLUB**.

THE VETERANS CLUB acts as a service organization for men who enlisted in World War II. This group meets monthly and presents varied and interesting programs.

TABAC, the college annual, is published by the students and the faculty advisers.

Religious Life

The administration is vitally interested in the spiritual welfare of Baldwin students. A vesper service is held each Sunday evening on the campus. Methodist Youth Fellowship, Student Service League and Baptist Training Union groups plan and produce the programs for the service. Members of the vesper organization also present the devotional for student assemblies and conduct mid-week prayer services on the campus. On Sunday morning the students attend Sunday school and church in the Tifton churches.

Athletics

The college recognizes the importance of a healthy body for individual success and happiness. Provisions are made for reasonable emphasis upon intercollegiate athletics in basketball and baseball. An interesting competitive program of intramural activities seeks to bring hearth, vigor and recreation to every student.

Artist Series

By setting aside a portion of the student activities fee for the purposes a student-faculty committee has successfully instituted an Artist Series which will be continued from year to year. The appearance of nationally-known speakers, musicians, dramatists and other entertainers enhances the cultural atmosphere of the college and community.

Alumni Association

Former graduates of the school are now engaged in organizing an active alumni association. The purpose of the association is to promote the welfare of the college and its alumni by increasing the interest of its members in the college and in each other.

Class Attendance

Regular class attendance is a student obligation. Absence from class or laboratory lowers grades and makes it more difficult to secure a passing grade.

There are no excused absences or cuts from class or chapel except those necessitated by trips of athletic teams, the glee club, vocational clubs, religious organizations, illness certified by a physician, the dean of men, the dean of women, death or serious illness in the student's family.

Unexcused absences from classes or assembly may at any time cause the student to be placed on probation or asked to withdraw from the college.

Courses may not be "dropped." All schedule changes must be approved in advance by the dean of instruction.

The college calendar is definite as to all opening and closing dates and dates for final examinations. Permission for early departure or late return cannot be granted.

Absences of young men are excused by the dean of men. Absences of young women are excused only by the dean of women or the President of the college.

Week-End Visits

One free week-end, exclusive of Thanksgiving, is permitted during the Fall quarter. Two free week-ends are allowed during the Spring and Winter quarters. On free week-ends the college closes at 11:00 A.M. on Friday. All students must return before 8:00 A.M. the following Monday.

General Assembly

Assembly is held each Wednesday morning at 9:45 in the college auditorium. Attendance is required. College life is here interpreted and in turn is expressed through student participation. The exercises are brief, but an effort is made to have them inspirational and helpful. Distinguished speakers and visitors are frequently present.

Rules and Regulations

Abraham Baldwin has set up a minimum number of rules and regulations for the maintenance of the health, the scholarship, and the moral integrity of the students.

The possession or use of intoxicants is prohibited.

There must be no gambling, hazing, or cheating. Dishonesty of any kind will receive a heavy penalty.

Fire arms, fireworks of any kind, or any article that would endanger the buildings to fire or the occupants to accident or discomfort will not be allowed in the buildings.

Students breaking any of the above rules may be asked to withdraw from the college.

Students are required to be in their rooms at a reasonable hour.

Young ladies will be allowed to go home after classes for week-ends only upon the receipt of a written request from parents or guardians. This request must be addressed to the dean of women.

All women students whether residing in the dormitory or not are subject to the general social policies formulated by the committee on social activities.

The President may request the withdrawal of a student at any time because of unsatisfactory spirit, conduct, or scholarship without having to make specific charges.

Loan Funds

Loans are available to a limited number of students from the following sources:

1. **BALDWIN LOAN FUND**—This fund is made up of miscellaneous contributions and is administered by the college.
2. **ROTARY LOAN FUND**—Upon recommendation of the college the Tifton Rotary Club will make small loans to students from its loan fund.
3. **RUTH FULWOOD WRIGHT LOAN**—Each year one second year girl may borrow \$125 from the loan fund established by Mrs. Ruth Fulwood Wright.
4. **SUSIE T. MOORE LOAN FUND**—Through the generosity of Mrs. Susie T. Moore a substantial sum of money has been made available to worthy students seek-

ing loans. Priority is given to young men and women from Tift County, but the fund is open to any deserving students recommended by the faculty committee.

5. **HARRY F. KULBERSH MEMORIAL FUND**—This fund was established in 1949 by the American Legion Auxiliary of Tift County and is available to sons and daughters of those who have served in the armed forces of our country.

Freshman Week

Freshman week begins on Monday, September 18, at which time all new students should report to the college. Three days, the 19th, 20th and 21st, will be devoted to introducing new students to the college atmosphere, the buildings and the library. Physical examinations and placement tests will be given before the completion of registration.

Second Year Students

Second year students will register on September 21. Classes will begin for all students on September 22.

Articles To Be Brought from Home

Each student must furnish the following articles: Blankets, sheets and other bed covering, pillow cases, towels, laundry bag, bath robe and other personal belongings. All articles should be plainly marked with the owners name in order that garments may not be lost in the laundry.

The rooms are furnished with single beds, mattresses, chairs, study tables, dresser, electric lights, and shades.

Requirements for Residence

1. A student who does not earn credit in at least one course during any quarter shall not be eligible to register for the succeeding quarter.
2. Any student who fails to earn credit in at least two courses during the quarter shall be placed on probation for the succeeding quarter. This probation shall continue until the student has passed for one quarter a normal load of three courses.

3. A student while on academic probation must earn credit in at least two courses. One of these courses must carry a minimum grade of C.

4. Students dismissed for defective scholarship may again register after an absence of one academic quarter.

5. The courses referred to above are exclusive of the usual required courses in Physical Education.

6. Students who fail to meet the regulations as above set forth because of illness or because of properly permitted less than a normal load of work, may receive such special consideration as their cases merit.

7. While the summer quarter is to be considered as a regular quarter by those institutions who maintain a summer quarter, students are not to be excluded from this quarter under the action of the above rules, but are to be allowed to make up deficiencies in the summer quarter of the institution concerned or other approved Summer Schools.

8. The above rules constitute the minimum scholastic conditions under which students can remain in the college. It is understood, however, that a student may be dismissed for deficiencies in scholarship at any time, even though he is not excluded under the above rules.

9. GUESTS. Before a guest is invited to the college, arrangements must be made with the matron in charge of the dormitory where the guest is to visit. All guests are expected to conform to the regulations of the halls of residence. Meal tickets for guests must be purchased at the Business Office.

Expenses

College expenses are payable in advance. Below is a schedule of costs by the quarter. **NOTE: All charges are subject to change at the end of any quarter.**

Matriculation fee (all students)-----	\$30.00
Activity fee (all students)-----	4.50
Clinical Service fee (all students)-----	1.50
Non-resident tuition-----	50.00
Room-----	21.00
Board-----	84.00

The estimated costs of books and laundry are \$15.00 per quarter. Students who formally withdraw during one week following the scheduled registration date are entitled to a refund of 80% of the fees paid for that quarter; those who withdraw during the period between one and two weeks after the scheduled registration date are entitled to a refund of 60% of the fees paid for that quarter; those who withdraw during the period between two and three weeks after the scheduled registration date are entitled to a refund of 40% of the fees paid for that quarter; those who formally withdraw during the period between three and four weeks after the scheduled registration date are entitled to no refund of any part of fees paid for that quarter.

The refund for room and board will be figured on a pro-rata basis, according to the actual number of days in attendance.

A student who withdraws from college must notify the registrar and the comptroller formally, before any refunds can be made.

A fee of \$10.00 must accompany each application for admission submitted by all new students and all former students desiring to be readmitted after an absence of one or more quarters including the summer quarter. Two dollars of this fee is considered the initial registration fee and \$8.00 as a room reservation deposit. If applicant requests withdrawal of application thirty days prior to the scheduled registration date of the quarter for which application is made, the \$8.00 room reservation deposit will be refunded, but the \$2.00 initial registration fee is not refundable in any part. When the student completes his registration the \$8.00 room reservation fee is applied to the first quarter's expenses. Non-boarding students are required to pay the \$2.00 registration fee only.

Special Fees

The clinical fee must be paid by all students residing in dormitories and veteran apartments. This fee does not take care of doctor bills, but is assessed for supplies and nurse services of a first aid nature only. All first aid services must originate at the college clinics.

Former students who enter after registration days will pay a fee of \$5.00 and \$2.00 per day thereafter until a maximum of \$15.00 is reached, unless the student has been unable to enter school because of illness. Such cases will be excused on a doc-

tor's certificate only. Special cases are excused only by the President of the college.

Boarding Students

All students housed in the college dormitories are required to eat in the college Dining Hall, excepting those who may be required for dietetic reasons, to have special treatment. Such applicants should be prepared to submit a statement from a physician, or from the college nurse. This, of course, does not apply to those living in housing units provided with food preparation facilities.

Regents' Scholarships for Honor Graduates Discontinued

The Board of Regents at its meeting held in Atlanta on March 29, 1949, discontinued the awarding of the Regents' Student Scholarships to honor graduates of accredited Georgia high schools, as authorized by the Board of Regents at a meeting held on December 11, 1946. In accordance with this action the units in the System have been directed not to grant such scholarships to any new students entering the University System after the 1949 Spring Quarter. This does not apply to students enrolled in the University System prior to this action, and does not deny such students scholarships for the sophomore year provided they rank academically in the upper 10% of the class.

Work Opportunities

A few jobs are available for students who need financial aid. Some of these are awarded to outstanding 4-H Club members, Future Farmers of America and Future Homemakers of America. Work jobs for these groups are awarded upon recommendation of state leaders in the various organizations. In addition to jobs given the above named groups, the college provides other work for worthy students who present excellent records and who need financial assistance.

Breakage Fees

Students are responsible for property in the dormitory rooms, and periodical inspections are made in buildings to determine

any damage that may occur. The amount of the damage is charged to the occupants of the room. Students are also responsible for any damages caused by them in any other buildings or college property.

Description of Courses

A description of courses in agriculture and home economics is given below. These courses are planned with the students' future in mind, both terminal and higher education being considered.

The agricultural course is made most efficient through the facilities present at the College and the Coastal Plain Experiment Station. Each course will be completed in one quarter. The discussion and laboratory hours given under each course are on a weekly basis.

Agricultural Economics 4: 5 hours. Five discussions or recitations. Farm arithmetic, including land area calculations, depreciation, percentages, fertilizer formulae, and leading up to detailed methods and practical applications of economics as related to agriculture—such as keeping, analyzing and interpreting farm records and budgets. First year.

Agricultural Economics 10: 3 hours. Three discussions or recitations. Orientation course in economics of agriculture designed to give the student an understanding of the place of economics in agriculture and to develop methods of using economic facts and practices in solving farm problems. A study of the problems in farm management and marketing. Second year.

Agricultural Engineering 20 (Soil and Water Conservation)—Required: 3 hours. Two discussions and one laboratory period. Designed to give detailed information in solving problems related to soil and water conservation with special emphasis given to terracing and drainage. First year.

Agricultural Engineering 61 (Farm Machinery and Equipment)—Required: 3 hours. Two discussions and one laboratory period. Theory and practice in operation, care, and repair of farm implements, including the selection of farm implements. Laboratory work to include actual field operation of equipment. Second year.

Agricultural Engineering 70 (Farm Buildings and Equipment): 3 hours. Two discussions and one laboratory period. An appraisal of farm buildings, farmstead planning, livestock and poultry buildings, air-conditioning farm buildings, building materials, structural design, buildings for storage, the farm home, drafting. Second year.

Agricultural Engineering 62 (Farm Engines and Tractors): 3 hours. Two discussions and one laboratory period. Selection, operation, care and repair, and application of farm engines and tractors. Laboratory work to include actual field operation of tractors. Second year.

Agricultural Engineering 2 (Farm Shop): 3 hours. Three two-hour laboratory periods. Carpentry, concrete, soldering, oxy-acetylene and arc welding, sheet metal, pipe fitting, and planning of farm shop. Second year.

Agromony I (Farm Crops): 5 hours. Four discussions and one laboratory period. Study of major field crops of Georgia with special study on varieties, adaption, fertilizer, rate of seeding, spacing, top-dressing, cultivation, disease and insect control, harvesting, and marketing. Results of forage and soil improvement crops investigation of Georgia considered in the study and organization of the farm program. First year.

Animal Husbandry I: 5 hours. Four discussions and one laboratory. Introductory course in animal husbandry designed to acquaint the student with fundamental problems of livestock production. Includes kind of livestock, its place in farming, emphasis on marketing requirements, marketing methods, processing, merchandising, feeding, management and breeding of swine, beef cattle, dairy cattle, poultry. First year.

Poultry Husbandry I: 3 hours. Two discussions and one laboratory period. An introductory course in poultry husbandry designed to provide basic information in this field. A survey of all phases of poultry to be studied with emphasis on the special problems and advantages found in Georgia. Second year.

Dairy Husbandry I: 3 hours. Two discussions and one laboratory period. An elementary course in dairying dealing with dairying and its relation to agriculture, as well as problems and advantages of dairying in Georgia. A study of the types of dairy production and how this production fits into various farming types in Georgia. Second year.

Forestry I: 5 hours. Three discussions and two laboratory periods. General agricultural forestry: tree identification, nursery planting, naval stores, measurements and volumes, treatment and uses of woods, environment, growth, culture, utilization, and management. All treated from the standpoint of theory and practice. Course dealt with on farm basis throughout. First year.

Horticulture I: 5 hours. Four discussions and one laboratory period. General introduction to horticulture, emphasizing adaptation and relationship of horticulture to agriculture in general, together with its relative importance in Georgia. A study of the more important fruits and vegetable crops. Emphasis placed on soil preference, cultural requirements, plant nutrient needs, practical insect and disease control, pruning, propagation, harvesting, and grading. General discussions of marketing as related to crop involved. Laboratory periods related to practical work in pruning, plant beds, spraying, propagation and study of research work in progress at Coastal Plain Experiment Station. First year.

* * * * *

HOME MAKING COURSES offer young women training that will enable them to maintain an efficient home. Lack of dormitory space limits the number of girls to 100 which assures close personal supervision. The course is made effective through the use of a fully equipped home unit and a complete home economics department.

Equipment and Home Management: 5 hours. Two discussions and four laboratory hours per week, and a half-quarter residence in the home management home. Includes the care of the house and equipment besides planning, marketing, and preparation of meals for a family sized group. Second year.

Foods 205: 5 hours. Six laboratory hours and two discussion periods. A course in the study of foods for the family group, including meal planning, marketing, preparation, and service. First year.

Home Economics I (Home Furnishings): 5 hours. Two discussions and six laboratory hours; prerequisite Home Economics 30. Includes the planning and selection of household furnishings from both the artistic and practical standpoints in solving definite furnishing problems on the campus. Second year.

Home Economics 30 (Applied art): 5 hours. Two discussions and six laboratory hours. A course designed to develop art appreciation and good taste through the application of art principles to everyday life. Special emphasis to be placed on the solution of problems found in clothing and the home. First year.

Home Economics 101 (Orientation to College Life). 5 hours. Five discussion periods. A course offered for freshmen women to help them make the best use of their opportunities in college. To guide them in study and vocational choice, and to assist them in planning for and making adjustments to a new way of life.

Home Economics 220 (Clothing): 5 hours. Two discussions and six laboratory hours. Prerequisite Home Economics 30. A course teaching the fundamentals of clothing based on wardrobe planning, identification, purchase and use of fabrics as well as garment construction. First year.

Home Economics 243 (Family Fundamentals): 5 hours. Five discussion periods. Open to men and women. A study of the problems and adjustments confronting young people, both before and after marriage. Second year.

* * * * *

THE SCIENCE COURSES at Abraham Baldwin are taught from two approaches. The basic knowledge of science that should be part of the knowledge of a well-informed citizen is taught as is the science with more direct applications to the problems of the farmer and homemaker.

Agronomy 10 (Soils): 5 hours. Four discussions and one laboratory period. Covers study of soils as natural units with their inherent characteristics, practical significance of chemical and physical properties of soils, relationships between soils and plants and principles involved in the use of soil management practices on the soils of the southeast. Prerequisites Chemistry 21 and 22. Second year.

Human Biology I: 5 hours. Five discussions. Designed to give the students a survey of the fundamentals of human biology as applied to personal and public health.

Botany 21: 5 hours. Four discussions and one laboratory period. Foundation study of cells and tissues, structure and functions of plant organs, environment, and reproduction of seed bearing plants. First year.

Botany 22: 5 hours. Four lectures and one laboratory period. A special study of the most important processes going on within the plant. A detailed study of environmental and hereditary factors influencing plant development. Plant improvement by breeding as a special emphasis. A brief study of plant classification, especially the characteristics of agricultural plants and plant diseases. Second year.

Chemistry 21: 5 hours. Four discussions and one laboratory period. A general course in the chemistry of non-metallic elements. Prerequisite algebra. Second year.

Chemistry 22: 5 hours. Four discussions and one laboratory. Inorganic chemistry. Continuation of chemistry 21, including general survey of subjects related to agriculture. Prerequisite chemistry 21. Second year.

Mathematics 101: 5 hours. Five discussions or recitations. This course is for homemaking students. A survey course covering arithmetic, plane geometry and algebra as taught in high school. Emphasis is on arithmetic. First year.

Mathematics 111: 5 hours. Five discussions or recitations. Trigonometry. Special emphasis is on logarithms.

Mathematics 224: 5 hours. Five discussions or recitations. College algebra. Designed for students with little or no preparation in algebra. Special emphasis is on fundamentals. First year.

Physics 20: 5 hours. Four discussions and one laboratory. A brief study of the elements of physics as might be applied in rural life, emphasis being placed on the more practical phases of problems applying to farming or homemaking. Second year.

* * * * *

THE ARTS. English and social science are taught from the standpoint of the well-informed citizen. The literature and social problems of rural life are given special emphasis.

English 101: 5 hours. Five discussions or recitations. A review of grammar, a systematic enlargement of the student's vocabulary, constant practice in writing and analyzing sentences and paragraphs. First year.

English 102: 5 hours. Five discussions or recitations. Prerequisite English 101. Continuation of English 101 with special at-

tention given to exposition, narration, and description, and with emphasis being placed on the research paper. A book of readings used to provide models and to stimulate the student's thinking. First year.

European Literature 201 and 202: 10 hours. Five discussions or recitations. Designed to develop in the student some knowledge and appreciation of literature, music, painting, sculpture, and architecture. Second year. Women.

English 203 (Speech): Prerequisites English 101 and 102. 5 hours. Five discussions or recitations. Spoken English in informal conversation and oral presentation of the formal types of discourse. Special emphasis placed on speaking before groups. Second year.

Political Science I: 5 hours. Five recitations or discussions. Brief but comprehensive study of Georgia as a state and as one of the United States through the medium of the Constitution of the United States and of Georgia. A further look into Georgia as it is today, using the latest statistical information, current problems, and current history. Second year.

Social Science: 5 hours. Five discussions or recitations. A brief study of the historical, political, economic, and social factors molding modern civilization. First year.

Physical Education for Men and Women

The physical education program is directed in its entirety towards the enrichment of experience through activities and in situations that conserve and promote the health and physical powers of the students; it cooperates in the removal of health handicaps, and remedial defects, and contributes a major share toward laying a foundation for positive health through desirable health habits. Two classes in physical training and one period on health are held each week for men students. Two double periods each week for women students. Two quarters each year are required of all students except those returning from the armed services.

Elective Courses in Agriculture

When a sufficient number of students to justify a class request that a particular agricultural subject be taught, it will be offered

in the quarter shown. Below are given electives which the college will offer:

Animal Production: 5 hours. Four discussions and one laboratory period. General course in livestock feeding and management with emphasis on the practical farm rations for swine, beef cattle, dairy cattle, and poultry. Will be offered winter quarter each year.

Beef Cattle: Prerequisite, Animal Husbandry I. 3 hours. A further study in breeding, feeding and management of beef cattle. Will be offered spring quarter 1952.

Swine: Prerequisite, Animal Husbandry I. 3 hours. A further study of breeding, feeding, management of the swineherd, with particular emphasis placed on the year-round hogging-off of crops as developed at the Georgia Coastal Plain Experiment Station. Will be offered spring quarter 1951.

Farm Shop: 3 hours. A practical course in shop work, including carpentry, forge, metal, and welding. Will be offered each regular quarter.

Food Preservation: 3 hours. One recitation and two laboratory periods. An introduction to the field of food preservation with special emphasis on the standards, principles, and practices of canning and freezing fruits, vegetables, and meats. Also designed to teach students the technique and skills necessary in cutting beef, pork, and poultry suitable for markets, locker plants, and home use. Two additional hours to be added in home food preservation at the Home Economics Department depending upon the number of girls electing to take the course. Will be offered each fall quarter.

Forage Crops and Pastures: 3 hours. Prerequisite Agronomy 1. Designed to study in greater detail those crops pertaining to livestock farming. Special emphasis to be given to grasses and grain crops emphasizing kind of seed, fertilizer treatment, land preparation and expected returns. Fall quarter.

* * * * *

Students pursuing courses leading to a degree in agriculture may take any elective subjects offered terminal students. Credits in these elective courses are not transferable. Although 108 hours

are required for graduation at this college, only 106 credit hours may be transferred to a senior college of agriculture.

Outline of Courses in Agriculture

(Minimum Abraham Baldwin Agricultural College requirements for students seeking a degree in agriculture.) Terminal students will require the same quarter hours of work but courses may vary.

FIRST YEAR

Agricultural Economics 4	5 Quarter Hours
Agricultural Engineering 20	3 Quarter Hours
Agronomy I	5 Quarter Hours
Animal Husbandry I	5 Quarter Hours
Botany 21	5 Quarter Hours
English 101	5 Quarter Hours
English 102	5 Quarter Hours
Forestry	5 Quarter Hours
Horticulture	5 Quarter Hours
Mathematics 224	5 Quarter Hours
Physical Education	5 Quarter Hours

53 Quarter Hours

SECOND YEAR

Agricultural Economics 10	3 Quarter Hours
Agricultural Engineering 61	3 Quarter Hours
Agricultural Engineering 70	3 Quarter Hours
(or) Agricultural Engineering 62	3 Quarter Hours
(or) Agricultural Engineering 2	3 Quarter Hours
Agronomy 10 (Soils)	5 Quarter Hours
Botany 22	5 Quarter Hours
Chemistry 21	5 Quarter Hours
Chemistry 22	5 Quarter Hours
Dairy Husbandry I	3 Quarter Hours
English 203 (Speech)	5 Quarter Hours
Physical Education	5 Quarter Hours
Physics 20	5 Quarter Hours
Poultry Husbandry I	3 Quarter Hours
Political Science I	5 Quarter Hours

55 Quarter Hours

Present students now enrolled who have taken Agricultural Engineering I, will take Agricultural Engineering II in their second year. Courses listed above are for students entering in the summer and fall 1950.

Terminal Courses

(Subjects listed below may be used for electives by students desiring terminal certificates. Electives will be substituted for certain required subjects listed above after a conference between student and the dean.)

Animal Production
Beef Cattle
Farm Shop
Food Preservation
Forage Crops and Pastures
Swine Production

Outline of Courses in Home Making

Home Economics Training_____

Underscore below the quarter you expect to enter:

Fall Winter Spring Summer

Are you a veteran?_____ P.L. 346_____ P.L. 16_____

If you took part in basketball, glee club, dramatic club, or other
extra-curricular activities in high school, please indicate on line
below:

Name two persons who will recommend you:

Name_____ Address_____

Name_____ Address_____

A fee of \$10.00 must accompany each application for admission submitted by all new students and all former students desiring to be readmitted after an absence of one or more quarters including the summer quarter. Two dollars of this fee is considered the initial registration fee and \$8.00 as a room reservation deposit. If applicant requests withdrawal of application thirty days prior to the scheduled registration date of the quarter for which application is made, the \$8.00 room reservation deposit will be refunded, but the \$2.00 initial registration fee is not refundable in any part. When the student completes his registration the \$8.00 room reservation fee is applied to first quarter's expenses. Non-boarding students are required to pay the \$2.00 registration fee only.
